Intermeccanica S

Liquid Cooled Rolling Coachwork

The **Generation II liquid cooled *Intermeccanica S* Rolling Coachwork** is a bespoke built high quality reproduction of the **1958 356A Speedster**, featuring in house designed and built tubular steel perimeter tube chassis, Canadian made one piece composite body. Dual custom radiators, alloy large capacity fuel tank, and expanded cargo capacity.

Each **Generation II liquid cooled *Intermeccanica S* Rolling Coachwork** is meticulously assembled to the original specifications and incorporates only top quality components and materials. The **liquid cooled Rolling Coachwork** is completed and readied for the installation of your **Subaru liquid cooled fuel injected 4-cylinder engine**.

Base Price **US\$ 63,765**

Features – Mechanical

- o Intermeccanica large section custom built tube steel chassis integral with fiberglass body, designed to fit **Subaru liquid cooled fuel injected 4-cylinder engines** (non turbo) and VW IRS transaxle assembly. Includes 900 series front transmission support & OEM Subaru style rear engine support
- o The engine/transaxle mounting location is moved forward in the chassis by approximately 3" from stock 356 location
- o 900 series strut front suspension with rack & pinion steering includes Intermeccanica camber/caster adjusting plates using spherical bearings, giving a wide range of adjustment and precise location of the top of the strut.
- o "Turbo" steering tie-rod assemblies are installed
- o CV shaft assemblies, complete
- o Four wheel original look 5 X 205mm bolt pattern disc brakes
- o 15 gallon alloy gas tank, front mounted
- o 3-speed heating and defrosting system with fresh air pick up
